

# Photographic Scavenger Hunt

This assignment is meant to establish a Sense of Place and an understanding of the concepts of urban geography. Define the terms before you start!

Instead of collecting objects for this scavenger hunt, each four-to-six person team will collect pictures with at least one member of the team standing in front of 20 of the 30 listed locations. Each team will then create a PowerPoint, PhotoStory3 or Prezi presentation using the pictures (10 from each group). Each picture must have an explanation or narration that gives background information about the place that is not evident from the picture. For example, when was the building built and after whom was it named?

## Due

Points: 40 pts = 2 point per picture (if a true representation of the listed location)  
 20 pts = 1 point for thorough explanation of each picture  
 30 pts = map showing all location using a program like Google MapMaker  
10 pts = interesting story line  
 100 points

## List of SENSE OF PLACE Examples:

1. An example of what makes Tallahassee unique - explain
2. A historic building downtown (dating prior to 1900) –explain
3. A local example of agriculture
4. A local government building (not the capital) – identify & tell what it is used for
